

## Welcome to Lake Garnett Raceway

Lake Garnett Raceway is home to a 2.7 mile road racing course and a 1/3 mile asphalt sprint track. It is a city owned, member operated and volunteer run facility. Both tracks are located within a beautiful park setting, with a lake and golf course surrounding it. We offer some of the most competitive kart racing in this part of the country. Our sprint track is open to the public on most days. This facility was completely re-done in 2007 with new track surface, new pit road, new off road, new corner curbing and an enlarged asphalt hot pit area. There has been continuous racing on our two tracks for over 50 years. Camping facilities are within walking distance of the tracks.
